Telephone - connection - Bellary Town - office of the Deputy Inspector-General of Police - proposal - recommended.

I enclose copies of the application from the Deputy Inspector-General of Police, Bellary and its enclosure for the installation of a telephone in his office. The necessity for the installation has been explained in detail by the Deputy Inspector-General in his letter C. No. 1301/G1/36 dated 2-9-1936 to the Inspector-General of Police, Madras and I agree with him.

2. The Divisional Engineer, Telegraphs, Coimbatore, who was consulted in the matter, has replied that the annual rental for the connection will be Rs. 168/- plus Rs. 6/- for the H.M.T. set required, in addition to Rs. 10/- being the installation fee, which will be waived if the rent for one full year is paid in advance. A copy of his letter No. P 15/49 dated 14-10-1936 is enclosed.

Copy of letter C. No. 1301/Genl/36 dated 20-9-1936 from the Deputy Inspector-General of Police, Bellary to the Collector of Bellary.

Deputy Inspector-General's office, Bellary - Telephone Installation.

In forwarding herewith copies of my letter C.No. 1301/Genl/36 dated 2-9-36 to the Inspector-General of Police, Madras, and his reply F.O.C. No. 1078/H & B/36 dated 16th September 1936, thereon I have the honour to request you to be good enough to move the government with reference to G.O. No. Press 407-W, Public Works Department dated 16-4-23, for the installation of a telephone in my office.

The public interest served and the necessity for installing a telephone in my office are explained in my letter of 2-9-36 cited above.

Copy of letter C.No. 1301/Genl/36 dated 2-9-36 to the Inspector-General of Police, Madras.

I have to request that the installation of a telephone in my office may be sanctioned.

As the office is within one mile of the local (Bellary) Exchange the cost will be Rs. 168/- per annum.

The installation charge of Rs. 10/- is, I understand, waived in the case of annual subscribers.

The question of installing a telephone in this office was presumably not raised hitherto owing to the various changes in the headquarters of this Range in recent years, and to the fact that the latest return to Bellary as headquarters was at a time of financial stringency.

The District Police Office and the District Superintendent of Police's bungalow as well as other public offices and the Police stations are distant from my office, and much time and considerable wear of office bicycle tyres can be saved by installing a telephone.

The

The extension of the trunk telephone system moreover has already brought the more distant parts of my range within telephonic reach of my headquarters, and the scope of the trunk system is now increasing with considerable rapidity.

It is hardly necesaary to stress the saving in expense as well as time, in comparison with telegrams and express messengers, which can be effected by the due use in suitable circumstances of these telephonic facilities.

I therefore make the above request.

If you agree, the Collector will be requested to move the Government for the installation of a telephone.

Copy of reply F.O.C. No. 1078/H.B./36 dated 16th Septr.36.

With reference to G.O. No. Press 407 W, Public Works Department, dated 16th April 1923, please request the Collector to move the Government for the installation of a telephone in your office."

Telephone connection to the office of the Deputy Inspector-General of Police, Bellary.

With reference to your letter No. C. 4675/36 dated 24-9-1936 I have the honour to inform you that rental for the above connection will be Rs. 18/- monthly or Rs. 168/- annually.

The monthly rates are subject to a discount of 10% if payment is made on or before 7th of the month in which it is due. An installation fee of Rs. 10/- will also be charged but if rent for one full year is paid in advance and the connection is retained for one year, the installation fee will be waived.

The

The connection should be retained for a minimum period varying between 2½ and 3½ months depending upon the date of installation and rent paid up to 15th day of the third month following the month in which the telephone connection is given and an hiring contract signed to this effect.

An additional rent of Rs. 6/- per annum or annas eight per memsem has to be paid for the H.M.T. set required.

HOME Department.

Sir,

Refce:- Home Department Memorandum No.2695 B-1, dated 9th November 1936.

I have the honour to state that there are telephones supplied to the Deputy Inspectors-General of Police of Northern and Western Ranges.

2. The Government sanctioned the installation in the case of the Deputy Inspector-General of Police, Western Rang in G.O.No.Mis.1983 W., dated 9th September 1935, in response to the letter of Sir Charles Cunningham, R.C.No.825/H&B/35, dated

dated 13th August 1936. I can add nothing to this letter except that as Range Deputy Inspector-General of Police of the Western Range, I can testify to the great benefits by way of saving of time and money it has conferred. It also enabled me on many occasions to discuss urgent matters with District Superintendents of Police in a very short time which might have taken weeks of correspondence and then not have been quite so satisfactory. I am strongly in favour of the introduction of the telephone not only for purely departmental work but on the ground that it also enables District Magistrates and other officers to get into touch frequently and quickly with the Range Deputy Inspector-General of Police.

I have the honour to be,

Sir,

Your most obedient servant.

2 At the instance of the Deputy Inspector general of Police, the Collector of Bellary recommends the installation of a telephone in the office of the Dy. Inspector of Police, Central Range. Bellary. The necessity for the ~~telephone~~ installation is explained in the DIG's letter at 'A' on pp 3-4. of The offices of the DIG. of Police Western Range (coimbatore), Southern Range (Madura), and Northern Range (vellore) do not appear to have been provided with telephone connections. The file may be sent to Home deptt for remarks.

Trunk calls are not ordinarily cheaper than telegrams unless there are very exceptional circumstances. I doubt if there is much justification for connecting up D.I.G's offices with the telephone system, hence regard to their ordinary functions.
